- Urdu — Native
- Spanish — B2
- English — B2
- Basque — B2

CORE COMPETENCIES

Teamwork · Leadership · Critical thinking · Creativity · Negotiation · Management · Organisation · Responsibility · Digital marketing

Jehangir Hayat Parveen

FULL STACK DEVELOPER

Professional summary

Full Stack Developer with higher vocational qualifications in Web and Multiplatform Application Development. I build complete web applications — from database to interface — with React, Laravel and Django, and design relational data models on PostgreSQL. I have built and deployed a corporate intranet panel and configured and customised Odoo ERP in a real business setting. I work methodically, pick up new technologies quickly, and care about both code quality and user experience.

Professional experience

Web Developer

Mar 2026 – Jun 2026

MARGUBE Internship

- Designed, built and deployed the corporate intranet panel with React, Vite and Supabase (PostgreSQL, Auth and Realtime).
- Employee, room, vehicle and booking modules with calendar views, plus a request workflow (holidays, purchases) with admin approval.
- Role-based access control, real-time updates, light/dark mode and deployment on Vercel.
- Developed and maintained the corporate website on WordPress.

React · Vite · SCSS · Supabase · PostgreSQL · Vercel · WordPress

ERP Developer

Feb 2025 – May 2025

CIPF MEKA LHII Internship

- Developed and configured the database in Odoo ERP.
- Installed, managed and customised modules to meet the school's requirements.

Odoo · ERP · Python · PostgreSQL
